

Shaid Mahamud

Cyber Security Specialist

🛡️ Vulnerability Assessment · 🕸️ Penetration Testing · 🔍 OSINT · 🛡️ Risk Mitigation

📍 Dhaka, Bangladesh · ✉️ shaidmahamud4@gmail.com

🐙 GitHub · 🌐 Portfolio · 🔗 LinkedIn

Professional Summary

Cyber Security Specialist with **3+ years of practical experience** in penetration testing, vulnerability assessment, and OSINT investigations. Successfully identified and reported **30+ security vulnerabilities**, including **5+ high/critical issues** aligned with OWASP Top 10. Proven track record in bug bounty programs, freelance security consulting, and delivering actionable security reports that reduced client risk exposure by up to **60%**. Founder of *Cyber Hub*, a community of **300+ members** dedicated to cybersecurity education.

Professional Experience

Freelance Cyber Security Specialist 2021–Present
Fiverr

- Completed **10+ security engagements** including vulnerability assessments and penetration tests
- Identified **3+ high and critical vulnerabilities** across web applications and APIs
- Helped clients reduce attack surfaces by **50–60%** through prioritized remediation

Bug Bounty Hunter 2021–Present
Multiple Platforms

- Discovered and responsibly disclosed **25+ valid vulnerabilities** in live production systems
- Reported XSS, SQL Injection, IDOR, authentication bypass, and server misconfigurations
- Achieved **90%+ acceptance rate** across multiple bug bounty platforms

Penetration Tester 2021–Present
Independent Practice

- Conducted **3+ full-scope penetration tests** simulating real-world attack chains
- Performed exploitation, privilege escalation, and post-exploitation analysis
- Improved system security by identifying misconfigurations and weak access controls

Leadership & Community

Founder — Cyber Hub 2020–Present

- Founded a cybersecurity learning community with **300+ active members**
- Created **20+ hands-on labs** covering penetration testing and OSINT techniques
- Mentored **100+ beginners** through CTFs, workshops, and guided practice

Education

B.Sc. in Computer Science & Engineering Ongoing
Independent University, Bangladesh

- Relevant Coursework: Computer Networks, Operating Systems, Information Security
- Academic projects focused on secure application development and automation

Higher Secondary Certificate (Science) 2020
Santahar Government College

Secondary School Certificate (Science) 2018
Naogaon Government High School

Certifications

- Cyber Security Program — Arena Web Security** (2025)
- CCNA v7: Switching, Routing & Wireless Essentials — Cisco** (2024)
- CCNA v7: Introduction to Networks — Cisco** (2024)

- **Advanced Cyber Security: Threats & Governance** — Great Learning
- **CyberDiplomacy Training** — United Nations Office for Disarmament Affairs

Technical Skills

Security Domains: Vulnerability Assessment, Penetration Testing, Risk Analysis, Incident Response

Web Security: OWASP Top 10, XSS, SQL Injection, CSRF, IDOR, Authentication Bypass

Tools: Burp Suite Pro, Nmap, SQLMap, FFUF, Dirsearch, Metasploit, Wireshark

OSINT: Maltego, Sherlock, Recon-ng, Google Dorking

Scripting: Python, Bash (Automation & Recon)

Networking: TCP/IP, DNS, HTTP/S, SSL/TLS

Platforms: Kali Linux, Parrot OS, Ubuntu, Windows

Projects

Advanced Bug Bounty Recon Tool — Automated asset discovery and subdomain enumeration framework

LocalLoop — Secure service marketplace with role-based access control

SMS Spam Detection — Flask-based ML classifier with **95% accuracy**

SQLMap Automation Script — Automated SQL injection testing and reporting

Languages

Bangla (Native) · **English** (Professional Proficiency) · **Hindi** (Conversational)
